## SUMMARY

Aspiring developer with a solid foundation in programming languages and a passion for learning and contributing to innovative projects. Eager to leverage academic knowledge and enthusiasm for coding to contribute effectively in a Agile development environment

## EXPERIENCE

### InArtigence.ai

May 2023 - Dec 2023

#### • Full Stack Development Internship

- Developed a responsive website UI using HTML, CSS, and JavaScript that reduced overall page load speed by 15%
- Utilized Java, Spring Boot and implement RESTful APIs
- Successfully implemented a caching mechanism, resulting in a 20% improvement in application performance.
- Conducted code reviews and provided constructive feedback to team members.
- Participated in daily stand-up meetings to discuss project progress and address challenges.

## TECHNICAL SKILLS:

- **Frontend** : JavaScript , React js , HTML , CSS
- **Backend** : Java , Python
- **Framework**: Spring Boot ,Django , Bootstrap
- **Database** : MySQL , MongoDB
- **AWS Services** : EC2 , S3 , VPC , SNS

## PROJECTS:

### Student Management System

- Java,HTML, CSS, Bootstrap , MySQL

- Developed a robust Student Management System leveraging Spring Boot, MySQL, and Thymeleaf technologies.
- Developed RESTful APIs supporting CRUD operations for streamlined student record management.
- Ensured secure user authentication via Spring Security. This strengthened security measures, safeguarded user data, and reduced unauthorized access risk by 40%.
- Utilized Spring Boot's capabilities for rapid development and seamless database integration, enhancing overall system performance.

### Car Dealership

- Java , HTML , CSS, Bootstrap , MySQL

- Implemented a RESTful API for the Car Dealership platform, resulting in a 30% increase in sales due to improved user experience.
- Collaborated with the front-end to integrate user-facing elements with server-side logic, resulting in a 50% reduction in customer complaints due to improved functionality.
- Designed and implemented a new database schema, resulting in a 40% increase in data retrieval speed

## REACT JS

### Myntra Website Clone

- Developed a Eye-catching and User-friendly Myntra Clone website using React.js, ensuring an intuitive user interface and optimal user experience.
- Achieved enhanced website performance and responsiveness through efficient state management using React.js.
- Successfully integrated a user-friendly "Add to Cart" functionality, enhancing the overall shopping experience with real-time updates.

**Netflix Clone**

- Optimized web applications for maximum speed and scalability, resulting in a 40% decrease in page load time and a 20% increase in overall site traffic.
- Achieved a notable 20% reduction in page load speeds and improved conversion rates through the implementation of best practices.
- Successfully enhanced website performance by 15% through strategic front-end development strategies, including code reduction and accurate issue resolution

---

**EDUCATION**

**Bachelor of Engineering**                      **2019 - 2022**  
Civil Engineering  
Zeal College of Engineering and Research  
CGPA - 8.11

**HSC**    **2017 - 2018**  
Kendriya Vidyalaya Pune - CBSE  
PCM with Computer Science  
Percentage - 61.4

**SSC**    **2015 - 2016**  
Kendriya Vidyalaya Pune - CBSE  
CGPA - 8.2

**CERTIFICATIONS:**

- **IBM Python Web Development**
- **Google Foundations: Data**
